MCLEAN, VIRGINIA & RESTON, VIRGINIA (3 September 2020) — Exiger, the global leader in technology-enabled regulatory, financial crime, risk and compliance solutions, and Carahsoft Technology Corp., The Trusted Government IT Solutions Provider®, today announced a strategic partnership. Under the agreement, Carahsoft will serve as Exiger Federal Solutions’ public sector distributor and make the company’s industry-leading due diligence and supply chain risk management AI solutions available to Federal, state, and local governments through Carahsoft’s NASA Solutions for Enterprise-Wide Procurement (SEWP) V and National Association of State Procurement Officials (NASPO) ValuePoint contracts and the company’s reseller partners.

Government agencies are facing unprecedented challenges in understanding and prioritizing ever-evolving risks associated with their vendors and global supply chains at speed and scale. Designed by Exiger’s threat finance, risk and counterintelligence experts and technologists, DDIQ’s award-winning AI-powered platform is purpose-built to help public sector organizations accelerate and act on decisions with confidence. DDIQ identifies and illuminates supplier risks to include potential foreign influence and control (FOCI), product vulnerabilities, financial stability, fraud, civil and criminal activities, and other risks that are critical to government agencies.

“We are excited to partner with Carahsoft to strategically scale our software business in the public sector. The demand for Exiger’s technology has increased exponentially over the past 12 months,” said Jon Goldman, Senior VP, Exiger Public Sector. “DDIQ is transforming how clients conduct due diligence on suppliers and their underlying supply chains. In addition, our continuous monitoring capability allows clients to detect emerging threats in real time. DDIQ is allowing clients to monitor their vendor ecosystem at scale and get critical insights required for mission success.”

Exiger’s DDIQ platform allows government agencies to gain new levels of insights into where risks exist within their supply chains

Technology Alliances Manager - Innovative and Intelligence Solutions
Carahsoft
Exiger’s DDIQ is the preferred solution for government agencies, financial institutions, and corporations to conduct automated due diligence on employees, partners and companies at scale. DDIQ identifies, validates and analyzes global risk indicators by aggregating open source information, performing entity disambiguation, assessing available data and continuously monitoring ongoing risk to the companies and suppliers within a relevant supply chain network.

“Exiger’s DDIQ platform allows government agencies to gain new levels of insights into where risks exist within their supply chains,” said Ebben Yazel, Technology Alliances Manager – Innovative and Intelligence Solutions at Carahsoft. “As the public sector modernizes its IT infrastructure and eyes new solutions, being able to leverage the scale and speed that DDIQ’s AI-enabled solutions offer provides agencies the peace of mind of knowing their risk assessments are current and actionable. We look forward to working with Exiger and our reseller partners to optimize the due diligence strategies of Federal, state and local governments.”

Exiger’s software and services are available through Carahsoft’s SEWP V contracts NNG15SC03B and NNG15SC27B and NASPO ValuePoint cooperative purchasing contract. For more information, contact the Exiger team at Carahsoft at (888) 662-2724 or Exiger@carahsoft.com; or register for the Exiger and Carahsoft webinar “Turning on the Light in Supply Chain Illumination” behind held on Wednesday, September 16, 2020 at 11:00 AM EDT.
